**DETAILED ACTION**

***Specification***

The disclosure is objected to because of the following informalities: On page 9 lines 5-6, the applicant discloses the various processes "had better be sequentially performed in a clean room". The use of "had better be" is ambiguous, and it is suggested applicant change this phrase to make it more explicit, e.g. by changing "had better be" to --are--.

Appropriate correction is required.

***Claim Objections***

Claims 5 and 9-15 are objected to because of the following informalities:

Claim 5: In line 2, "said ball bearing" should be --said ball bearings--.  
In line 3, "opened" should be --open--.

Claim 11: In line 2, "outer" should be --inner--.

Appropriate correction is required.

***Allowable Subject Matter***

Claims 5 and 9-15 are allowed.

The following is an examiner's statement of reasons for allowance:

The method for manufacturing spindle motors typically involves assembly of the individual components, while keeping the disk drives free from contaminants. The claimed subject matter is allowable because the prior art fails to teach a method of manufacturing a spindle motor, including a bearing washing process, a bearing grease filling process, and a bearing mounting process where these processes are performed sequentially in an assembly process under a clean environment. The applicant's invention reduces the manufacturing cost of the spindle motor because the spindle motor and the ball bearing assembly can be assembled simultaneously.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**

This application is in condition for allowance except for the following formal matters:

See the objections noted above..

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
